

Band: THE CATORCE
Album title: NOVIEMBRE
Stamp: INDEPENDENT
Release Date: NOVEMBER 2, 2018
Genre: PROGRESSIVE MELODIC ROCK

BIO

NOVIEMBRE is the first album of the melodic rock band "The Catorce", from the city of Concepción-Chile.

The Catorce has finally consecrated its sound, style and musical quality. This new group was formed September 2014, recording on its album titled "November" a combination of melodic rock with its progressive and epic tints.

This album released on November 2, 2018 in the city of Santiago de Chile and performed at the Rock Festival has had great impact and acceptance in both the national and international public through social networks. Its launch was made in digital format for the most important music platforms and also on CD for those who like to collect music in their clubs.

The Catorce brings us a new adventure in Latin rock consolidated in a precise and meticulous execution in the drums, with a wide range in its guitar sound and a mixture of softness and power in the voice that will not be allowed to go unnoticed before a public that likes good rock.

The Catorce, while in Texas USA in the recording rooms of DLS Records, wasted no time in showing part of their work in the Rock bars of the city of Laredo where they not only showed material and good sound, they were also attractive for an English-speaking audience thirsty for Rock, showing that it does not matter the language of their lyrics but the spirit of rock transmitted by this band from Chile.

Recently "The Catorce" launches its first video clip "Noviembre", song that bears the name of the album. Having very good acceptance despite its short recording time. "We were against the time and it was only a week before the release of the album and we were scheduled to do it together with a video clip. And when we no longer saw any hope, appears Alejandro Salazar, producer in video image, and together we managed to film this clip of the song "November" in one of the most emblematic places in our area that is an old textile factory known as "Bellavista Sheep" Take". Alvaro tells us vocalist and leader of the band. The next step for this band is to be heard in different countries through digital platforms and live concerts. "Our shows are very energetic and connected with the audience. We really enjoy being on stage. We have played both in small bars to large festivals such as Mazatlán carnival in Mexico and Purple Night which takes place at Ester Roa stadium in Concepción, Chile. Our biggest interest is to spread our work everywhere, so far we feel really confident and proud of what we have accomplished"

In short, a great band totally recommended for almost any musical taste. If you want to serve yourself a melodic Rock shake with Progressive parts and Epic Metal, record this name; "The Catorce".
